

December 04, 2025: On Why Should We Follow 'the Law' at All?

Since it has become plainly obvious that the government is now being run by one large criminal enterprise that is formed into two separate arms that operate as distractions over the country that they 'control' -

I am presenting the very basic question to the public for an answer:

Why should we follow the law (or be subjected to criminal charges) while the 'leaders' of the country operate above the law in an area of 'legal grace' that allows them to carry out such a large criminal conspiracy?

I have the answer to this question and it is **morality**.

Since the rest of the community is so far removed from this concept, I still leave the question to be answered.

Their truth? It's fear. They fear the consequences of being subjected to 'the administration' in any way. That is exactly how we got into this mess in the first place.

Since **the people that I personally witnessed in my lifetime operate on a frequency of fear**, and since **I operate on a frequency of morality**, we simply cannot maintain a community in harmony with one another.

In fact, my neighbors, my peers, my family, and most every person that I ever met in my life (aside from a couple of select friends) operates on a frequency of fear.

Community, public, and people of the world: You are the reason why criminals have taken over the United States government, law enforcement agencies, and political parties.

You let me down. You are the reason why they are able to exert themselves over our lives in such a manner that is completely free of consequences or even fear of consequences at this time.

There is absolutely nothing stopping this administration from carrying out another holocaust.

Whether they do so or not (and expose themselves further from their criminal entrenchments) is yet to be determined. But, mark my words: **The criminals running the American government have every bit of power in place** (and every bit of a complacent and lost public) **to carry out another Nazi holocaust at this very moment in 2025.**

God, help us all.
